DoorLine

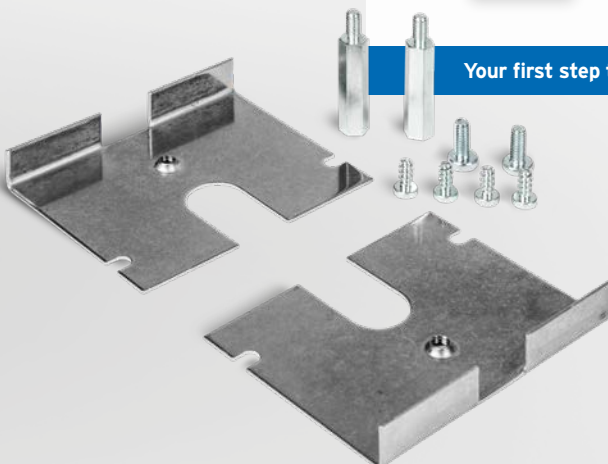

Assembly Instruction Conversion Kit

from

- DoorLine Classic
- DoorLine a/b
- DoorLine T01-04

to

- DoorLine Slim
- DoorLine Slim Dect
- DoorLine Pro Exclusive

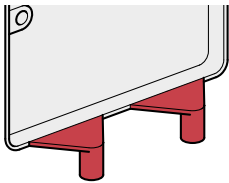

Your first step towards more convenience at your front door.

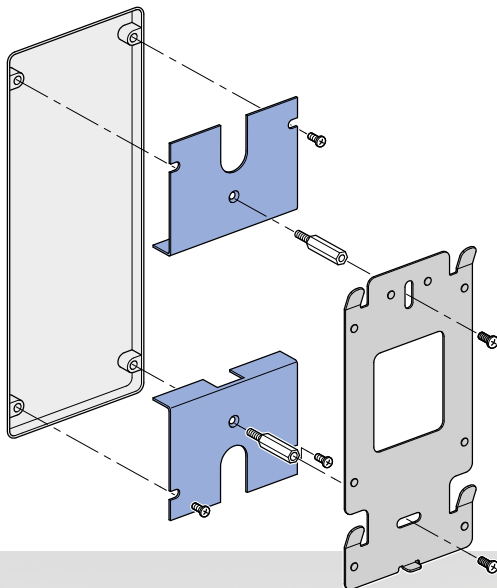

In just a few steps to the new DoorLine.

Assembly

1. Unscrew your DoorLine Classic.
2. Cut off the two noses from the flush-mounted box .

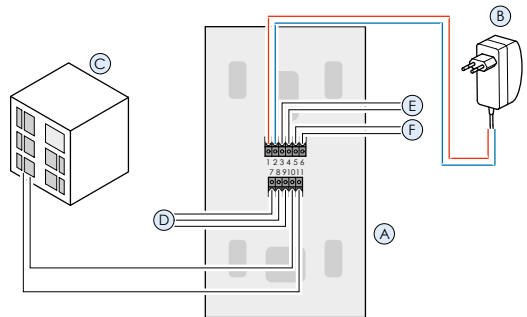

3. Connect the two retaining plates with the four mounting bolts.
4. Tighten the two spacer bolts.
5. Fix the mounting plate over the two spacer bolts with the mounting bolts
Note: Both included in the scope of supply of the DoorLine Pro Exclusive.

Connection

Connect the clamps (1) and subsequently re-connect the clamps onto the device.

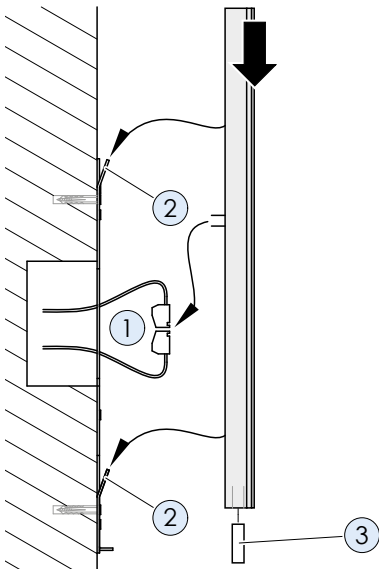

| Pos. | Specification |
|------|--------------------------------------|
| A | DoorLine intercom system (rear page) |
| B | Plug-in power supply |
| C | Telephone system |
| D | Expansion box |
| E | Relay contact 1 |
| F | Relay contact 2 |

Installation New Doorline

1. Mount the device slanted from above onto the mounting bolts until the four metal noses (2) engage in the four fixing holes of the device.
2. Fix the device with the hexagonal grub screw (3) at the mounting bolt.

Caution:

Tighten the screw only slightly, otherwise the thread might be damaged.

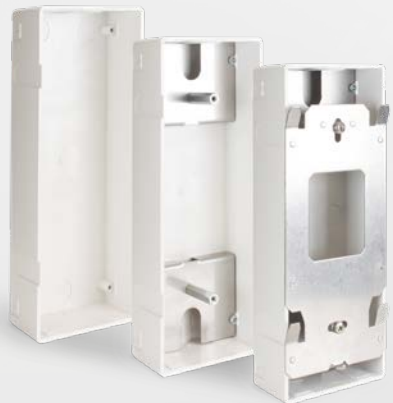

Further Information

In the assembly and operating instructions the connecting process is explained in detail. Please strictly adhere to the mentioned safety instructions.

Instruction Film

Instruction film for installation of a DoorLine Pro Exclusive in the flash-mounted casing of the DoorLine Classic.
